

COALESCE AND GO PUBLIC

COALESCE: After completing the Investigation phase of researching the causes of water pollution and developing ideas for how to prevent it, students synthesized their learning with partners by deciding on one way to stop water pollution. They then worked together to express their idea on a poster.

GO PUBLIC: Students presented their posters on the school’s morning news, as well as for guests from the University of South Carolina involved with Richland County stormwater conservation.

Water Pollution Poster Rubric

Score	Criteria
4	<ul style="list-style-type: none">• Neat handwriting• Colorful and neat illustrations related to solution• One detailed solution on how to prevent water pollution• Worked well with partner and shared the responsibility
3	<ul style="list-style-type: none">• Neat handwriting• Illustration related to solution• One solution on how to prevent water pollution• Worked well with partner and shared the responsibility
2	<ul style="list-style-type: none">• Handwriting is mostly neat• Illustration does not relate to solution• The solution is not very clear on how to prevent water pollution• Could have worked better with partner
1	<ul style="list-style-type: none">• Handwriting is not neat• No illustrations• No clear solution on how to prevent water pollution• Did not work well with partner
