Lightning

Lightning is Dangerous
 (Sung to the Farmer in the Dell)

Do you want to learn about lighting?
 Do you want to learn about lighting?
 Lightning is really dangerous
 It's hotter than the sun.

Lightning is a spark
 Lightning is a spark
 Lightning is a spark of electricity
 And you don't want it to hit you.

The spark hits the tallest objects
 The spark hits the tallest objects
 It can even hit a tree
 which will cause a fire.

Lightning is dangerous
 You want to stay safe
 So you should go inside
 a house or a car
 Now you've learned about lighting!
 Now you've learned about lighting!
 Lightning is really dangerous
 It's hotter than the sun.

Hurricanes

Hudson: We are researchers of hurricanes.

Chloe D: We're going to tell you all about hurricanes.

Hannah: Hurricanes form over the Atlantic Ocean and Gulf of Mexico.

(Hudson turns away from Hannah and just looks at Chloe)

Hudson: Hurricanes form when clouds spin over warm ocean water.

Chloe: Hurricanes can be really dangerous. The strong winds can break windows.

Hudson: There is also a lot of rain with a hurricane so flooding can happen.

Chloe: Wow hurricanes are dangerous!

Hudson: WHAT?!

Hannah: A hurricane is coming!

All: We need to evacuate!!! Get in the car and step on it!!

chase ^{caligion} jeremiah
Our severe weather is
thunderstorms.

chase ^{caligion} jeremiah
this is what we learned
about thunderstorms.
Thunderstorms look like a
big storm with a booming
noise.

caligion
what is a thunderstorm?

chase It makes a booming sound.
caligion it is coming from the ground

jeremiah no it comes from the sky
caligion do eg + just come from
a plane clouds

chase No!

caligion just explain it to me
jeremiah Its a storm that
has hail and a booming
noise called thunder.

chase stay in your house or under the ground.

jeremiah The thunder doesn't
hit anything but the ground.
